### **Insulated Patio Cover**

Insulated patio covers provide protection if your in a hail prone area. The sacrificial .019 pan will absorb the hail and not allow transfer of dings and dents.

---

### **Rear Wall Patio Cover**

Many municipalities are requiring what is called a fourth wall patio cover. This is our standard patio, but has a support beam and posts running parallel next to the house. The patio cover is still attached to the home to provide a watertight connection.

## Featuring EZ Handrail & Fence

### EZ Handrail

EZ Handrail added to your patio cover is easy. When you call or email a request for quote add a handrail option to the request. Our dedicated sales and design staff, we will ask you some specifics for your application. Adding handrail is painless to the job as all the components for mounting the handrail is the same as the patio cover or screen room components. We can even provide CAD and/or professional installation if needed. Please call our office for more details. One of our courteous design professionals will be glad to assist you with your project.
